OUR JIB SOLUTION

THE INDUSTRY-LEADING SOLUTION FOR JOINT INTEREST BILLING

WHO WE ARE

EnergyLink™, by Red Dog Systems, is an industry-leading, cloud-based data exchange platform that provides energy companies with economical and innovative solutions.

Our JIB module within EnergyLink is a fully integrated Owner relations portal that provides an efficient and economical solution for automating joint venture transactions between Operators and Partners. Our proprietary tool saves you time and money by delivering an unparalleled solution for joint interest billing.

Go to EnergyLink.com for information on all available solutions.

HOW IT WORKS

Operators are able to upload their billing data to EnergyLink, our secure cloud-based system, and electronically send that data to their Partners. Partners can then code, analyze and prepare it for download directly into their accounting system without having to manually key the data.

Innovative correspondence and dispute management features allow joint venture partners to track discrepancies and support handling of all elements of their joint interest billing processes.

Operator Process	EnergyLink	Manual	Other Systems
Send JIBs electronically - FREE!	✓	✗	✗
Reduce G&A of printing and mailing hard copies	✓	✗	✓
Send comments and attachments with JIB statements	✓	✓	✗
Easily track the status of your invoices	✓	✗	✗
Correspond with partners about issues and disputes with built-in audit trail	✓	✗	✗
Manage/close disputes with built-in audit trail and reporting	✓	✗	✗
Advanced search and reporting options	✓	✗	✗
Option to manage AR - separating disputes from delayed payments	✓	✗	✗

Advanced search and reporting options	✓	✗	✗

WHY CHOOSE ENERGYLINK?

It's simple. EnergyLink is the industry leader for joint interest billing processes, with over 90% of the market utilizing our modules. EnergyLink provides.

WORKFLOW AUTOMATION Data automatically flows from Operators to Partners through EnergyLink with the use of our unique and intuitive master file code mapping features and customized interfaces.

CORRESPONDENCE AND DISPUTE MANAGEMENT Only EnergyLink allows Operators and Partners to correspond with each other while providing an audit trail of disputes, issues and supplemental information provided.

REPORTING & ANALYTICS EnergyLink provides extensive Excel reporting and dashboards to help Operators track data sent to Partners, while Partners can track their workflow and analyze Operator data.

RedDog Systems is dedicated to improving joint venture and owner relations business processes. We are partners to our customers and are invested in addressing the challenges that exist in our industry.

Contact us today to learn more on how you can utilize all of our tools to help ease your day-to-day joint venture business.
